OROL LEDDEN

WE ARE plant-growers and not plant-dealers. Every plant we send out is grown by us on our Sewell Farms. Only first-class plants raised from carefully selected seed will be sent out.

We ship annually thousands of mail orders to all states east of the Mississippi River. The bulk of our orders go into New Jersey, Pennsylvania, New York, Delaware, Maryland, Ohio, Virginia, and the New England States. Our careful packing, insuring good condition of plants, gives our customers the best satisfaction.

We have five large greenhouses heated by hot-water heat for early plants. These houses are devoted to growing pepper, eggplant, and tomato plants. Also, we have 1200 sash for coldframe beds for spotting or raising plants. The greater part of our plants are hardy, field-grown, planted and farmed by machine in 12-inch rows. These field-grown plants are strong and healthy, raised from the highest grade seed, and will give the best satisfaction.

All plants shipped will be carefully packed in moss, in cartons, boxes, or crates and sent by Parcel Post or Express.

We are located in our Stucco Store, on concrete road, opposite Sewell station, 12 miles below Camden on the Pennsylvania-Reading Seashore Lines to Atlantic City.

We welcome customers and friends at our farms and shall be glad to show our plants and seeds. To come by automobile—Camden or Gloucester to Woodbury to Mantua, left 2 miles to Sewell. From South Jersey points, come by way of Glassboro, take Woodbury road, and turn to left at Sewell. Roads are concrete.

Terms

Cash must accompany all orders; otherwise, goods will be shipped C. O. D. Send Check, Postal Money Order, Express Money Order or Registered Letter. You are protected by our safe delivery guarantee.

We guarantee all plants to be grown on our Sewell Farms. We grow and handle plants from the best seed obtainable, and no seed that we know is of poor germination or inferior in any way is allowed to be sold.

The fact being well known that no reputable seedsman now guarantees seeds in any respect renders it unnecessary for us to say very much on this point, because it must be apparent to every intelligent person that no seedsman can afford to send out poor or worthless seeds. There could be no more certain way of destroying his business.

While we exercise the greatest care to have all seeds, plants, and bulbs pure and reliable, we give no warranty, express or implied, as to description, purity, productiveness, variety, or any other matter of any seeds, plants, or bulbs that we send out; and we will not in any way be responsible for the crop. If the purchaser does not accept the goods on these terms, they are to be returned at once and the money paid will be refunded.

All prices quoted in this Catalogue are subject to change without notice

OROL LEDDEN & SONS

Safe Delivery Guaranteed. All plants and seeds are guaranteed to arrive in first-class condition, and if they do not, mail carrier or expressman should be notified on delivery. If damaged, request him to make notation of damage, sign, and mail to us at once, and more plants or seeds will be forwarded or money refunded.

Orol Ledden & Sons' Seed Store opposite Sewell Station, Sewell, New Jersey

Ledden & Sons' Vegetable Plants

Beet Plants *Plant May 15 to July 1*

Crosby's Egyptian. One of the most popular early Beets, highly desirable for table use. The roots are dark blood-red, globe-shaped, and are very convenient for bunching.

Detroit Dark Red. Deep maroon or blood-red. A second-early variety excellent either for bunching or baskets.

PRICES: Postage prepaid: 20 cts. for 25; 50 cts. per 100; \$1.50 for 500; \$2.50 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$1.50 per 1,000.

At our farms: 10 cts. for 25; 25 cts. per 100; \$1.50 per 1,000.

Brussels Sprouts

Plant May 10 to August 1

Long Island. Fine, sure-heading type producing dependable crops of firm, shapely little heads of exactly the right size.

Postage prepaid: 20 cts. per doz.; 50 cts. per 100; \$1.50 for 500; \$2.50 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$1.50 per 1,000.

At our farms: 10 cts. per doz.; 25 cts. per 100; \$1.50 per 1,000.

Brussels Sprouts

Broccoli

Christmas Calabrese. A heavy-producing variety of this excellent green vegetable. Plant in April under glass or in May outdoors.

Postage prepaid: 25 cts. per doz.; 60 cts. per 100; \$2.00 for 500; \$3.00 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$2.00 per 1,000; 5,000 or more, \$1.50 per 1,000.

At our farms: 10 cts. per doz.; 30 cts. per 100; \$1.50 per 1,000.

Cauliflower

Plant May 10 to August 1

Early Snowball. Best of all varieties for market growing because of its resistance to the heat which occurs in early summer.

Postage prepaid: 25 cts. per doz.; 60 cts. per 100; \$2.00 for 500; \$3.50 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$3.00 per 1,000.

At our farms: 10 cts. per doz.; 30 cts. per 100; \$3.00 per 1,000.

Collards

Georgia or Southern. An excellent green which is really improved by frost. Plants from large bunches of tender leaves.

Postage prepaid: 20 cts. for 25; 50 cts. per 100; \$1.35 for 500; \$1.80 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$1.25 per 1,000; 5,000 or more, \$1.00 per 1,000.

At our farms: 10 cts. for 25; 20 cts. per 100; \$1.00 per 1,000.

A partial view of 27 acres of Late Cabbage Plants

Cabbage Plants *Plant May 10 to August 10*

Every year we grow large fields of Cabbage plants for kraut packers and farmers. We have shipped as many as 1,500,000 Cabbage plants in five days. Several sowings are made throughout the season in order to have plants the right age at any time during the season. We make it a point to have as healthy plants as possible and have all the leading varieties. We would advise gardeners to set out Cabbage plants two or three times—early varieties in May, second-early or late in June, late varieties in July.

Golden Acre. This is the most popular early variety. Heads are of good size, perfectly round, solid, and very uniform and compact, having few outer leaves, which permits close planting. We have a very good strain from a reliable grower.

Early Jersey Wakefield. A very early, pointed-head Cabbage, compact and erect, with few outer leaves. Stem short; heads medium-sized.

Charleston Wakefield (Large Wakefield). Similar to Jersey Wakefield except about one week later. Heads larger and not as sharply pointed.

Winnigstadt. A good early variety. Very sharp-pointed heads. Used for early planting and also for planting late in July and August.

Allhead Early. This is a great Cabbage and one of our best sellers. Head hard, slightly oval to flat in shape. One of the most used by kraut packers. We have sold millions of this variety to growers for kraut factories.

Copenhagen Market. An extra-early, good, round-heading, hard Cabbage, about one week later than Golden Acre.

Early Summer. An early flat-head variety.

Surehead. Large, popular, flat-head, late variety.

Succession. A second-early with roundish, slightly flat, solid head. Good kraut Cabbage.

Early Flat Dutch. Similar to Late Flat Dutch but earlier and smaller.

Glory of Enkhuizen. Hard-heading, second-early, fine-grained. One of the best for kraut.

Danish Ballhead. Tall stem. A very hardy, sure-heading, heavy variety which has proved to be one of the best keepers. A desirable Cabbage.

Danish Roundhead. Short stem. Very good late variety. Heads are not quite as large as the Ballhead. Solid and also a good keeper.

Late Flat Dutch. Enormous, flat head. Should be planted early in July as it requires a full season to head hard. Best late variety and also best winter keeper.

Perfection Drumhead Savoy. The crumpled-leaf variety, producing large heads. Should be planted in June, July, or August.

Red Rock. Hard-heading red variety.

PRICES: Postage prepaid: 20 cts. for 25; 50 cts. per 100; \$1.35 for 500; \$1.80 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$1.25 per 1,000; 5,000 lots or more, \$1.00 per 1,000.

At our farms: 10 cts. for 25; 20 cts. per 100; 50 cts. for 500; \$1.00 per 1,000.

The Largest Growers of Celery Plants in New Jersey

Celery Plants

Plant June 15 to August 15

Ledden Golden Self-blanching. The most popular and one of the best of all early varieties. For the past few years our stock has produced Celery of unexcelled quality and perfect growth. Everyone should raise this excellent variety.

Golden Plume. A self-blanching Celery developed from Golden Self-blanching. Has been pronounced by authorities to be the best early variety. Blanches quickly and is very healthy.

Sanford Easy-blanching. This good variety comes a little later than Golden Self-blanching and requires longer banking to blanch. Vigorous in growth and a splendid keeper.

White Plume. An early Celery with beautiful white leaves in center. Blanches pure white. Liked by some better than Golden Self-blanching.

Giant Pascal. Grows large and is the leading late variety. Stalks are broad, thick, and solid. Extra good eating Celery; very brittle.

Winter King. A strong grower and one of the best keepers. Blanches white when banked.

Postage prepaid: 30 cts. for 50; 50 cts. per 100; \$2.00 for 500; \$3.50 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$3.00 per 1,000.

At our farms: 20 cts. for 50; 30 cts. per 100; \$1.50 for 500; \$3.00 per 1,000; 10,000, \$2.50 per 1,000.

Golden Plume Celery

Black Beauty Eggplant

Eggplant

Plant May 15 to June 30

Black Beauty. The spotted plants do not carry well by Express or Parcel Post. If you live near enough to come on train, you can carry them in handle baskets or they can be taken in auto or wagon. If you live at a distance and cannot come for them, we advise taking pulled plants.

PULLED SASH-GROWN, ready June 1 to July 15. Postage prepaid: 25 cts. per doz.; 75 cts. per 100; \$3.00 for 500; \$5.00 per 1,000.

FOR SPOTTING: \$3.00 per 1,000, f.o.b. Sewell.

SPOTTED, ready May 20 to July 1, in 5-inch blocks, at our greenhouses: 50 cts. per doz.; \$4.00 per 100; \$30.00 per 1,000.

Five Large Greenhouses for Early Plants

California Wonder Peppers

Pepper Plants

Plant May 10 to July 20

World Beater. This great Sweet Pepper wins praise wherever it is grown. The large plants are loaded with enormous Peppers excellent for slicing or filling.

We grew 18 Peppers that filled a basket and took first prize at Granger's Fair at Alcyon Park at Pitman, N. J.

California Wonder. A new and very good variety. Meat very thick and dark green, turning crimson. The heaviest and thickest Pepper on the market today. Highly recommended.

Ruby King. An extra-good variety, earlier than World Beater. Heavy cropper.

Hot Bull Nose. An extra-good, hot, blunt variety. Heavy yielder.

Tomato or Squash Pepper. A round, sweet variety.

Long Red Cayenne. A red-hot variety used for pickling, drying, etc.

PULLED SASH OR FIELD-GROWN

Ready May 20 to July 20

Postage prepaid: 20 cts. per doz.; 60 cts. per 100; \$2.00 for 500; \$3.50 per 1,000.

Express or Parcel Post, f.o.b. Sewell: \$2.50 per 1,000.

At our farms: 10 cts. per doz.; 30 cts. per 100; \$2.50 per 1,000.

PLANTS FOR SPOTTING

Ready March 25 to April 25, f.o.b. Sewell: \$2.50 per 1,000.

Lettuce Plants

Plant May 15 to June 15

Big Boston. Very large, compact heads of light green leaves lightly bronzed at edges. Popular, early variety.

Iceberg. Medium size, crisp, compact heads with creamy hearts. Large, crumpled, medium green leaves with wavy edges.

Postage prepaid: 20 cts. for 25; 50 cts. per 100; \$1.35 for 500; \$2.00 per 1,000.

At our farms: 10 cts. for 25; 25 cts. per 100; \$1.00 for 500; \$1.50 per 1,000.

Sweet Potato Plants

May 1 to June 20

Yellow, Red, and Yams. Parcel Post prepaid: 50 cts. per 100; \$2.00 for 500; \$3.50 per 1,000. By Express or Parcel Post, f.o.b. Sewell: \$3.00 per 1,000.

Big Boston Lettuce

Tomato Plants *Plant May 1 to July 30*

Tomato plants are our greatest specialty, and we believe we are the largest growers of Tomato plants in the United States. Canneries and large growers in New York, Pennsylvania, New Jersey, Delaware, Maryland, Virginia, West Virginia, Ohio, Indiana, and Illinois obtain their plants from us every year. We have had single orders for a million plants and many unsolicited testimonials say, "Your plants were good and the Tomatoes produced from them were the best received at the factory."

Our plants are grown from seed treated with Semesan, and we give quick service when plants are right size.

Certified Marglobe. The leading variety and used as the main crop by almost all large growers. Seventy per cent of our sales on Tomato seed is the Marglobe. A second-early, solid, very meaty, thick red Tomato, that ripens well up to the stem, making it very desirable for canning or table use. Heavy yielder. All of our Marglobe plants are grown from New Jersey State Certified Seed.

Rutgers. This new introduction by Lyman G. Schermerhorn, of the New Jersey Agricultural Experiment Station, is a leading development in Tomatoes. It compares in shape and size with the Marglobe but is slightly earlier and a heavier yielder. The fruit ripens a deep red up to the stem, and runs very uniform in size. An excellent variety for home use, marketing, or canning. Cannerymen who put up Tomato Juice speak very highly of the variety as it produces a juice which is deep red in color.

Pritchard (Scarlet Topper). This variety was introduced by Dr. Frederick J. Pritchard, of the U. S. Department of Agriculture. A heavy-yielding variety, about 10 days earlier than Marglobe. Vines are not as rugged as Marglobe and do not hold up throughout the season.

Greater Baltimore. An extra-good main-crop red Tomato.

Matchless. Large, extra-good market sort. A good Tomato for factories that pack whole Tomatoes, or good for market. Tomatoes are large, solid, and red.

Improved Stone. An extra-good heavy Tomato for canning or slicing.

Bonny Best. Second-early variety that is liked by cannerymen that grind their Tomatoes for soups or catsups, as the fruits ripen to the stem and also have a beautiful red color when ground. Tomatoes grow in clusters.

Ponderosa. A large purple Tomato, used in gardens.

Acme. Early purple Tomato.

Yellow Plum. Used for preserving.

TOMATO PLANTS FOR SPOTTING, ready March 20 to April 20—Spark's Earliana, Marglobe, Rutgers, and Pritchard (Scarlet Topper), \$2.50 per 1,000, f.o.b. Sewell.

FIELD-GROWN TOMATO PLANTS always give the best satisfaction. Ready May 25 to July 1.

Parcel Post or Express prepaid: 20 cts. for 25; 55 cts. per 100; \$1.50 for 500; \$2.00 per 1,000.

Express or Parcel Post, f.o.b. Sewell: 25 cts. per 100; \$1.25 per 1,000.

SPOTTED TOMATO PLANTS, ready about May 10—Earliana and Marglobe, at our greenhouses, 50 cts. per doz.; \$3.00 per 100; \$25.00 per 1,000. These do not carry well by Parcel Post or Express, but can be carried in baskets by auto or truck.

Pulling Tomato Plants

A Parcel Post Shipment of Our Plants

Asparagus Roots *Plant March to April*

One or two years are saved by planting roots. A bed 12 x 40 feet requires 100 roots, which would supply a family; 5,000 roots to an acre in 4-foot rows.

Mary Washington. The best and leading variety. Extra-strong 2-yr. roots, postage prepaid: 75 cts. for 50; \$1.25 per 100; \$8.00 per 1,000.

Express or Parcel Post, f.o.b. Sewell: 85 cts. per 100; \$7.00 per 1,000.

Special prices on larger quantities.

Rhubarb Roots *Plant March and April*

Victoria. An extra-good market sort with large, beautiful red and reddish green stalks.

Extra-large roots, postage prepaid: \$1.25 per doz.; \$8.00 per 100.

Express, f.o.b. Sewell: \$40.00 per 1,000.

At our farms: 50 cts. per doz.; \$4.00 per 100; \$30.00 per 1,000.

Truck-load of 200,000 Tomato Plants going to Maryland

A field of Tomatoes on one of our farms

Vegetable Seeds

We list 200 of the leading and best varieties of seeds and take greatest care to secure only the best strains. Our seeds are grown especially for us by the most reliable growers in various parts of the world, so that it may be produced in the section that is best suited for the variety. For example, our Lima Beans are grown in California; Beans, in Idaho; Cantaloupe, in Colorado; Corn, in Connecticut; Spinach, in Holland; Onion sets, in Illinois, etc. Contracts with growers are placed twelve to eighteen months before the seed is to be delivered or before the seed-grower plants the seed stock. This is done to secure only fresh and highest quality seeds for our customers.

Orol Ledden, Sr., who has devoted thirty-two years to the seed business and has been a plant-grower all his life, probably is better acquainted with the farming industry and the gardener's problems than any other man in the seed business today. We say this because he was born and reared on a large farm in Gloucester County, New Jersey; his father was a farmer and grew plants and seeds. He owns and operates two large farms and other farmland totaling about 300 acres. He has experimented with all of the varieties of vegetable seeds listed in this book and has grown them on a commercial scale. He is therefore well acquainted with their individual characteristics.

We endeavor at all times to secure the highest quality seeds obtainable and to offer these high standard seeds at minimum prices. No seed is allowed to be sold that we know is poor in germination or in any way inferior.

Prices quoted on Beans, Corn, Onion Sets, and Peas include postage or express charges prepaid on quantities up to 15 pounds. Quarter bushels or more of seeds mentioned are quoted f.o.b. Sewell, N. J. On all other seeds, postage, express, or freight charges are prepaid by us to your address. This enables our many mail-order customers to secure Ledden's Seeds at no extra cost. No charge is made for packing or package except for 2-bushel seamless bags, which will be charged at 30 cts. each.

Half-ounce sold at ounce rate; 1/2 pound sold at pound rate; 1/4 or 1/2 bushel sold at bushel rate.

Artichoke

Large Green Globe. The best variety. Treat like tomatoes, sowing the seed indoors and setting the plants 2 to 3 feet apart, in April or May. Pkg. 10 cts.; oz. 40 cts.; 1/4 lb. \$1.25; lb. \$4.00.

Asparagus *Sow in March and April*

Mary Washington. The best variety of Asparagus. It is a selected strain, earlier and more vigorous than other varieties, producing fat, delicious stalks abundantly and regularly. This is the famous rustproof variety produced after many years' effort, and is completely free from rust and other fungous diseases which harass the life of many Asparagus growers. Quality is of the highest. Oz. 10 cts.; 1/4 lb. 25 cts.; lb. 70 cts.; 5 lbs., 65 cts. per lb.

Beans, Green-Pod

Plant April 15 to August 15

- Bountiful.** Extra early. Large, flat pods, entirely stringless. Enormous yielder. The most popular market variety. Highly recommended. Requires 48 days from sowing to date of maturity. Lb. 20c.; 10 lbs. or more, 18c. per lb.; bus. (60 lbs.) \$6.60.
- Giant Stringless.** Long, round pod, entirely stringless. Requires 54 days from sowing to date of maturity. Lb. 20 cts.; 10 lbs. or more, 18 cts. per lb.; bus. (60 lbs.) \$7.20.
- Burpee Stringless.** Round-podded, stringless variety. Good yielder. Requires 53 days from sowing to date of maturity. Lb. 20 cts.; 10 lbs. or more, 18 cts. per lb.; bus. (60 lbs.) \$7.20.
- Stringless Black Valentine.** Very early. Pods are long, smooth, straight, and round. A recent introduction, completely stringless, and a big improvement over the old type. Requires 50 days from sowing to date of maturity. Lb. 20c.; 10 lbs. or more, 18c. per lb.; bus. (60 lbs.) \$7.20.
- Tendergreen.** Long, green, straight pods and perfectly round. Requires 54 days from sowing to date of maturity. Lb. 20 cts.; 10 lbs. or more, 18 cts. per lb.; bus. (60 lbs.) \$7.20.
- Full Measure.** Second early. Round pod, perfectly stringless. Requires 60 days from sowing to date of maturity. Lb. 20 cts.; 10 lbs. or more, 18 cts. per lb.; bus. (60 lbs.) \$7.20.
- Dwarf Horticulture.** Beans and pod splashed with carmine, stringless. Large and heavy yielder. Used as a Snap Bean when young, or shelled. Requires 60 days from sowing to date of maturity. Lb. 20c.; 10 lbs. or more, 18c. per lb.; bus. (60 lbs.) \$7.80.
- French Horticulture.** Large pods, heavily splashed with carmine. Vines large, heavy yielders. Used for shelling. Requires 66 days from sowing to maturity. Lb. 20c.; 10 lbs. or more, 18c. per lb.; bus. (60 lbs.) \$9.00.
- Fava Early Long-pod.** Early. An Italian Shell Bean with thick pods. Can be planted early. Lb. 20 cts.; 10 lbs. or more, 18 cts. per lb.; bus. (60 lbs.) \$7.80.

Bountiful Beans

Wax-Pod Beans

Plant April 15 to August 15

Currie's Rustproof. Early. Flat pods. Very heavy cropper. Requires 52 days to mature.....	Lb. \$0 20	10 lbs. per lb. \$0 18	Bus. of 60 lbs. \$7 80

Sure-Crop Wax. A stringless second-early, flat-pod. Requires 58 days to mature.....	20	18	7 80

Fordhook Bush Lima Beans

Bush Lima Beans
(California-grown)

Sow from May 1 to July 15

- Fordhook.** We have a reputation for handling a better grade of Fordhook Bush Limas than most seed-houses. Our Beans are all hand-sorted, extra large, good croppers, and almost free from cracked Beans. We supply a number of the largest growers, some of whom plant as many as 40 acres of Fordhook Bush Limas, and have been buying their seed supplies from us for thirty years. Our stock is especially grown for us in California by a leading grower who specializes in this variety. Requires 76 days from sowing to date of maturity. Lb. 25 cts.; 10 lbs. or more, 20 cts. per lb.; bus. (60 lbs.) \$9.00.
- Burpee's Improved.** A flat-pod Lima, which has steadily advanced in popularity for both home-growing and market use. It bears uniformly larger pods than the original Burpee's Bush Lima, which contain even thicker Beans that remain green after they become dry. The compact, bushy plants are very prolific, bearing huge pods in clusters of 5 to 7. Individual pods average 5 inches long or more, and carry up to 6 large, flat Beans which are thin-skinned and wholly satisfying in their delicious flavor. Its popularity is second only to Fordhook Bush Lima offered above. Matures in 75 days from sowing. Lb. 25 cts.; 10 lbs. or more, 20 cts. per lb.; bus. (60 lbs.) \$9.00.
- Henderson's Bush Lima.** A fine Baby Lima with productive bushes 20 inches tall. Each pod contains 3 or 4 small white Beans. Lb. 25 cts.; 10 lbs., 20 cts. per lb.; bus. (60 lbs.) \$9.00.

Pole Beans *Sow from May 15 to July 1*

- Improved Pole Lima or Challenger.** Very productive vines, bearing pods 4 inches long containing 4 or 5 large, meaty Beans. Matures in 89 days. Lb. 25 cts.; 10 lbs., 22 cts. per lb.; bus. (60 lbs.) \$12.00.
- King of the Garden Lima.** Strong-growing vines bearing large pods with handsome, delicious Beans loosely packed. Matures in 84 days. Lb. 25 cts.; 10 lbs., 22 cts. per lb.; bus. (60 lbs.) \$12.00.
- Green-seeded Pole Lima.** Popular variety, bearing bunches of long pods with 4 or 5 thick green Beans of high quality. Matures in 84 days. Lb. 25 cts.; 10 lbs., 22 cts. per lb.; bus. (60 lbs.) \$12.00.
- Kentucky Wonder.** Green pod. Vigorous vines with huge bunches of green pods 7 to 9 inches long. Excellent for table when young. Very prolific and profitable. Ready in 68 days from sowing. Lb. 20 cts.; 10 lbs., 18 cts. per lb.; bus. (60 lbs.) \$10.20.

Broccoli *Sow April to July 1*

	Pkg.	Oz.	¼lb.	Lb.
Christmas Calabrese. This vegetable is becoming more popular each season. Develops a central head like cauliflower, which is cut and used. Sprouts can be cut from the lateral branches until October.	\$0 10	\$0 30	\$1 00	\$3 00
Rapa. Produces small green heads which are cut and bunched the same as sprouting Broccoli.	10	20	50	1 50

Brussels Sprouts *Sow April and May*

	Pkg.	Oz.	¼lb.	Lb.
Long Island Improved. Choice, selected variety very popular in markets, always fetching a good price. Compact growth, producing an abundance of solid, well-flavored Sprouts. Very profitable.	\$0 10	\$0 25	\$0 75	\$2 50

Beets

Sow from March 20 to July 20

Crosby's Egyptian. One of the most popular of early varieties. Dark red, of globe shape, small, compact tops. Good for bunching. Quality very fine, smooth texture, very sweet and tender. Matures in 45 days from sowing. Oz. 10 cts.; $\frac{1}{4}$ lb. 25 cts.; lb. 80 cts.; 5 lbs. or more, 75 cts. per lb.

Detroit. A dark blood-red, second-early or main-crop variety good for garden or field. Can be bunched or basketed. Roots round, of excellent color, averaging $2\frac{1}{2}$ to 3 inches in diameter, and are very fine-grained, with a smooth skin and a delicate flavor. Matures in 52 days. Oz. 10 cts.; $\frac{1}{4}$ lb. 25 cts.; lb. 80 cts.; 5 lbs. or more, 75 cts. per lb.

Early Wonder. Early. Globe shape; blood-red. Highly recommended. Matures in 48 days. Oz. 10 cts.; $\frac{1}{4}$ lb. 25 cts.; lb. 80 cts.; 5 lbs. or more, 75 cts. per lb.

Half-Long Blood or Bastian Half-Long. Matures in 60 days. Oz. 10 cts.; $\frac{1}{4}$ lb. 25 cts.; lb. 80 cts.; 5 lbs. or more, 75 cts. per lb.

Detroit Dark Red Beets

Early Snowball Cauliflower

Mangel Wurzel, Mammoth Long Red. Very large field-crop which yields immense tonnage per acre. Flesh is white, tinged red. For cattle and poultry. Oz. 10 cts.; $\frac{1}{4}$ lb. 25 cts.; lb. 50 cts.; 5 lbs. or more, 45 cts. per lb.

Cauliflower

Sow in April and May

Early Snowball. The best early sort. Heads large and compact. Always a good cropper, even in hot weather. Matures in about 95 to 110 days. Pkg. 10 cts.; oz. \$1.00; $\frac{1}{4}$ lb. \$4.00; lb. \$15.00.

Super-Snowball. A recent selection of an improved type from Early Snowball. Matures in same time, about 95 to 110 days. Oz. \$1.50; $\frac{1}{4}$ lb. \$5.00; lb. \$20.00.

A Field of Celery Plants

Stowell's Evergreen Corn

Sweet Corn

Plant April 1 to July 15

Golden Bantam. The most popular variety now in commerce. It develops extra early. Small stalks. Easy growing. Good for garden use. Very sweet. Matures in 70 days from sowing.....	Lb. \$0 20	10 lbs. per lb. \$0 18	50 lbs. \$7 50
Golden Cross Bantam. Larger than Golden Bantam, equal in quality, and matures about 4 days later but a heavy producer.....	35	30	12 50
Improved Golden Giant. Large ears with 12 to 14 rows of thick, golden yellow kernels. Matures in 78 days from sowing.....	20	18	7 50
Adams Extra Early. A very early variety of white Corn of excellent quality. Although the ears are small, it is a heavy producer.....	20	17	7 00
Howling Mob. An early Sweet Corn. Good yielder. Most stalks bear two ears. Excellent for table or market. We recommend it. Matures in 78 days from sowing.....	20	18	7 50
Early Evergreen. An early strain of the popular Evergreen. The ears are a trifle smaller but have all of the old variety's high quality.....	20	18	7 50
Stowell's Evergreen. Late or main-crop, standard variety. Ears large, deep-grained. We have an extra-good strain of the true Evergreen. Matures in 92 days from sowing.....	20	18	7 50
Long Island Beauty. Large, well-filled ears of excellent quality. Especially fine for marketing late in the season. Matures in 95 days.	20	18	7 50
Bantam Evergreen. Combines the good qualities of Golden Bantam and Stowell's Evergreen. Matures in 90 days from sowing.....	20	18	7 50
Vanguard. An early Sweet Corn of good table quality. Matures in about 68 days from sowing.....	20	18	7 50
Country Gentleman or Improved Shoe-Peg. Matures in 88 days from sowing.....	20	18	7 50
Golden Colonel. The new golden Country Gentleman.....	35	30	12 50

Pop-Corn

Plant April 1 to July 1

Golden Queen Pop-corn. Very popular. Yellow kernels, creamy white when popped. Matures rather late.....	Lb. \$0 20	5 lbs. per lb. \$0 18
White Rice Pop-corn. Very productive variety with large, well-filled ears which make delicious popped Corn.....	20	18

Field Corn

Plant in May

Early Leaming. A good early sort that will come in about 90 days. Good for sandy ground or late planting.....	Lb. \$0 10	Bus. (56 lbs.) \$3 00
Golden Dent. Golden yellow. Heavy cropper. Saved from selected ears. No farmer will make a mistake in planting this Corn. We have taken great care in selecting this seed. Matures in 110 days.....	10	3 00

Straight-8 Cucumber

Cucumber *Plant April 15 to July 1*

	Oz	¼lb.	Lb.	5 lbs. or more per lb.
Clark's Special. Rich green variety of good length and very uniform. Very good variety. Matures in 65 days.	\$0 10	\$0 30	\$1 00	\$0 90
Klondike. Early dark green variety, unexcelled for home or market use. A heavy yielder. Vines stay green longer than most varieties. Matures in 68 days.	10	30	90	80
Davis Perfect. Valuable variety, later than Klondike and grows longer Cucumbers. Matures in 72 days.	10	30	90	80
Longfellow. Grows from 10 to 12 inches in length, deep green in color. Matures in 75 days.	10	35	1 25	1 15
Early Fortune. Early. Slim, well-shaped Cucumber. Matures in 65 days.	10	30	90	80
Hybrid. Dark green. Good shipper. Matures in 65 days.	10	30	90	80
Straight-8. The latest Cucumber introduction. The straight, symmetrical fruits grow about 8 inches long and about 1½ inches in diameter. Matures in 66 days.	20	65	2 25	2 00
National Pickling. A highly desirable pickling strain recently developed. Fruits are dark green and uniform.	10	30	90	80

Dandelion *Sow March, April and August*

	Pkg.	Oz.	¼lb.	Lb.
Improved Broad-leaved. Large, handsome foliage.	\$0 10	\$0 35	\$1 25	\$4 00
Italian. Tender; mild-flavored.	10	25	1 00	3 00

Dill *Sow April and May*

	Oz.	¼lb.	Lb.
Long Island Mammoth. Much used for seasoning.	\$0 10	\$0 25	\$0 75

Eggplant *Sow in greenhouse in February*

	Pkg.	Oz.	¼lb.	Lb.
Black Beauty. The best variety. Fruit large; glossy black. Early and thornless.	\$0 10	\$0 35	\$1 25	\$4 00

Endive or Escarolle *Sow March, April, and August*

Green Curled. Attractive; well flavored.	10	30	90
Broad-leaved Batavian. Larger meaty leaves.	10	30	90
Deep Heart. Blanches easily. High quality.	10	30	90

Fennel or Anise *Sow in May and June*

Large Sweet Florence. Popular vegetable in some markets.	10	30	1 00
--	----	----	------

Kale or Borecole *Sow August 15 to September 30*

	Oz.	¼lb.	Lb.	5 lbs. or more per lb.
Early Dwarf Scotch. Plant low and compact, resembling a bunch of moss. Matures in 60 days.	\$0 10	\$0 25	\$0 75	\$0 70
Siberian. Grows faster than Scotch, but not so much curled. Extremely hardy. Matures in 55 days.	10	25	75	70
Dwarf Blue Scotch. Bluish green, extra curled variety. Matures in 60 days.	10	25	75	70

Kohlrabi or Turnip-rooted Cabbage *Sow from March to July*

	Pkg.	Oz.	¼lb.	Lb.
Early Purple Vienna. Very attractive. Flesh tender.....	\$0 10	\$0 20	\$0 65	\$2 00
Early White Vienna. Earliest variety. Good quality.....	10	20	65	2 00

Leek *Sow in March and April*

American Flag. The most popular variety. Used for flavoring.....	15	45	1 50
---	----	----	------

Lettuce

Plant March and April for spring; August and September for fall

	Oz.	¼lb.	Lb.
White Boston. Head large and handsome. A popular variety.....	\$0 15	\$0 40	\$1 25
Iceberg. Light green; heads large, crisp, and tender. Stands hot weather well. Slightly curled.....	15	40	1 25
Silicia Curled. A loose-leaf, curled variety called by some "cut-and-come-again".....	15	40	1 25
Cabbage or Butter. Good garden variety. Makes a large head.....	15	40	1 25
Black-seeded Simpson. A good curled variety.....	15	40	1 25
Cos or Romaine. Upright variety; self-blanching.....	15	40	1 25
New York or Wonderful. Good variety for this section. Under proper conditions will develop good-sized, solid heads.....	15	40	1 25

Muskmelon or Cantaloupe *Plant May and June*

	Oz.	¼lb.	Lb.	5 lbs. or more per lb.
Hale's Best. Very popular variety. Flesh orange, heavily netted. A good shipper. All of our stock is grown on contract for us by a most reliable grower in Colorado. We highly recommend this variety.....	\$0 10	\$0 30	\$1 00	\$0 90
Fordhook. An extra-good variety. Flesh orange, deep meated, of excellent flavor. A good shipper. We have a selected strain of this excellent Muskmelon that cannot be beaten.....	10	30	1 00	90
Hearts of Gold. Golden flesh. Grows large.....	10	30	1 00	90
Bender's Surprise. Salmon-flesh; delicious flavor.....	10	30	1 00	90
Honey Rock or Sugar Rock. Golden pink; honey sweet.....	15	40	1 30	1 25
Sugar Sweet. An extra-good early variety. Green flesh.....	10	30	1 00	90
Imperial Special or Improved Weaver's Special. A great improvement over the popular Weaver's Special. Its deep orange flesh extends to the rind. Has but few seeds as the seed-cavity is very small. A deliciously flavored melon which will be popular with both the home gardener and the market grower. Pkg. 10 cts.; oz. 20 cts.; ¼lb. 65 cts.; lb. \$2.00.				

Hale's Best Muskmelon

Gathering Japanese or Ebenezer Onions on one of our farms

Turnip

Sow March or April for spring crop;
July or August for fall crop

Aberdeen Green-Top Yellow Globe.
A medium-sized root, rather late-maturing. Fine pale yellow, globe-shaped, with a short green crown. Oz. 10 cts.; ¼lb. 20 cts.; lb. 50 cts.

Aberdeen Purple-Top Yellow Globe.
Similar to Green-Top Yellow Globe, except that the crown is purple. Oz. 10 cts.; ¼lb. 20 cts.; lb. 50 cts.

Golden Ball. An excellent golden yellow, ball-shaped Turnip which does not grow very large. Oz. 10 cts.; ¼lb. 20 cts.; lb. 50 cts.

Mammoth Purple-Top White Globe. Large, globe-shaped Turnip with a purple crown and the rest pure white. This is the most popular of all Turnips and the quickest grower. This is much used for broadcasting in corn or with grass. Oz. 10 cts.; ¼lb. 20 cts.; lb. 50 cts.

Shogoin or Japanese Foliage. Serves a dual purpose. The long, strap-shaped leaves are used as “greens,” and the white globe-shaped root for cooking. Very resistant to blights and pests of all kinds. Oz. 10 cts.; ¼lb. 20 cts.; lb. 50 cts.

Seven-Top. The abundant tops are used for greens in the manner of spinach, making a delicious dish, while the roots may be cooked as ordinary Turnips. Oz. 10 cts.; ¼lb. 20 cts.; lb. 50 cts.

Mammoth Purple-Top White Globe Turnip

Rutabaga

Sow July and August

Improved American Purple-Top. Flesh deep yellow; purple top; excellent flavor. Rapid grower. The best variety for market or table use. Should be sown in rows and farmed	Oz. \$0 10	¼lb. \$0 20	Lb. \$0 65
Canadian Gem. Yellow. Purple top. Drought-resistant	10	20	65

Watermelon

Plant in May and June

Improved Kleckley Sweet. A good popular melon for market or home use. Oblong; medium size; dark green with bright red flesh, sweet and delicious.	10	25	75
Tom Watson. Large green-rind melon. A good shipper, highly recommended	10	25	75
Irish Grey. A new melon, wonderfully productive, unexcelled for eating. Rind yellowish gray	10	25	75
Cole's Early. Very early home-garden variety	10	25	75
Stone Mountain. For home use and local market	10	25	75
Shaker Blue. A dark green, round melon. Good shipper	10	25	75
Excel. Large, dark green melon. Tough rind. Good flavor	10	25	75
Black Boulder. Mammoth, oval-shaped melon with almost black rind. An extra-good shipper, but not as good eating as some other varieties.	10	25	75
Long White Icing. White-rind variety; sweet and delicious	10	25	75
Preserving Citron. Used for preserving. Red seed	10	25	75

Border of Cannas

Canna

We have made a specialty the past few years of growing quite a quantity of the most popular large-flowering varieties of Cannas. We offer both the bulbs and the potted plants (potted in 3½-inch pots and ready during May, June, and July) at very attractive prices.

President. Large, brilliant scarlet blooms. Glossy green leaves. This is probably the most popular variety because of its excellent habit and brilliant shining color. Height 4 feet.

Yellow King Humbert. Large, golden yellow flowers, dotted with red spots. Leaves are light green. An old timer but scarcely to be surpassed by more modern varieties which have challenged its supremacy. Height 4½ feet.

Richard Wallace. Canary-yellow; large and showy flowers. Green foliage. Strong stems. Height 4½ feet.

Meteor. Bright red flowers. Glossy green leaves, similar to President. A good bedding variety. About 3 feet high.

Wyoming. Large spikes of orange flowers. Dark bronze leaves. One of the tallest varieties suitable for back rows or the center clumps of large plantings. Height 6 feet.

Golden Eagle. Golden yellow flowers. Green leaves. Makes a fine massed bed, of a brilliant shade effective in sunlight. Height 4 feet.

Gladiator. Yellow flowers, splashed with red. Light green leaves. The bizarre, oriental coloring is most attractive. Height 4 feet.

Cheerfulness. Beautiful light red flowers with orange centers and an orange edge. Green leaves. Height 4 feet.

Apricot. Light pink with buff-yellow base. Bright green leaves. Height 3½ feet.

Eureka. Creamy white flowers. Green leaves. This is the only really good white variety known. It is the rarest and most difficult color in Cannas. Height 4 feet.

Red King Humbert. Dark red flowers. Glossy deep brown leaves. Height 4 feet.

BULBS: 10 cts. each; 75 cts. per doz.; \$5.00 per 100; \$40.00 per 1,000, postage or express prepaid. 5 cts. each; 50 cts. per doz.; \$4.00 per 100; \$35.00 per 1,000, f.o.b. Sewell, N. J.

PLANTS: 15 cts. each; \$1.25 per doz.; \$10.00 per 100, postage prepaid. 10 cts. each; 75 cts. per doz.; \$6.00 per 100; \$50.00 per 1,000, f.o.b. Sewell, N. J.

Ageratum, Blue Perfection

Annual and Perennial Flower Seeds

AGERATUM, Blue Perfection. An annual with large heads of deep blue flowers on 1-foot plants. Pkg. 10 cts.; $\frac{1}{4}$ oz. 20 cts.; oz. 65 cts.

ALYSSUM, Carpet of Snow. Low, creeping annual; plant about 3 inches high, covered with heads of tiny, fragrant white flowers all summer. Much used for edging, window-boxes, etc. Pkg. 10 cts.; $\frac{1}{4}$ oz. 15 cts.; oz. 40 cts.

Saxatile, Basket of Gold. Perennial. Gray-green foliage and half-shrubby plants covered with a mass of bright yellow flowers in spring. Good for rock-garden. Pkg. 10 cts.; $\frac{1}{4}$ oz. 20 cts.; oz. 60 cts.

AMARANTHUS tricolor, Mixed. Large leaves of brilliant red, scarlet and yellow. An annual reaching 3 feet. Pkg. 10 cts.; $\frac{1}{4}$ oz. 20 cts.; oz. 50 cts.

ASTER, Giant Crego, Mixed. Beautiful, long-stemmed annual flowers of lacy form like Japanese Chrysanthemums. Shades of crimson, rose, violet, pale blue, pink, white, etc. This type is one of the most popular of the Annual Asters; the plants are strong and produce quantities of larger blooms 5 inches and over in diameter. Pkg. 10 cts.; $\frac{1}{4}$ oz. 20 cts.; oz. 65 cts.

Wilt-resistant Aster

ASTER, Wilt-resistant Strain. The introduction of this strain has saved Asters to our gardens. You can again grow this glorious annual without fearing the terrible wilt disease. We list three colors of these.

Blue

Rose

White

Each, pkg. 10 cts.; $\frac{1}{4}$ oz. 30 cts.; oz. \$1.00

BALSAM, Mixed. Quick-growing, hot-weather annuals with brilliant, double, waxy flowers of curious shape all up the stems. Scarlet, crimson, pink, white, and many intermediate and variegated shades. Pkg. 10 cts.; $\frac{1}{4}$ oz. 15 cts.; oz. 40 cts.

BALSAM APPLE (Momordica). An attractive annual climbing vine with large yellow flowers and apple-shaped fruits. Pkg. 10 cts.; $\frac{1}{4}$ oz. 15 cts.; oz. 40 cts.

Largest Growers and Shippers of Vegetable Plants in New Jersey

A Border of Snapdragons

Largest Growers and Shippers of Vegetable Plants in New Jersey

The Savage Duster

This Savage Duster is used for dusting sulphur, calcium, arsenate, nicotine, Bean Beetle Dust, Bordo, and other dry insecticides and fungicides. It does a very thorough job, is easily operated and carried. We recommend this Duster for control of the Mexican bean beetle. Price, \$18.00. Two-row Attachment, \$3.50.

Platz "Green" Hand Duster

New Model

Light, compact, sturdy, efficient. Capacity, 2 to 4 pounds. Large, powerful bellows. 30-inch extension spreader.

Easy to work and regulate. Practically indestructible—wearing parts can be readily replaced. Excellent for dusting either hill crops or underside of foliage. Handles any dust that can be used in larger outfits. Price, \$7.00.

The Auto Spray A SELF-OPERATING AUTOMATIC SPRAYER

This machine is one of the strongest and most simple in its parts. The pump is locked by means of a sliding cam, which prevents wear, gives long service and renders all parts instantly accessible. Reservoir holds 4 gallons, but should not be over two-thirds full of solution when ready for spraying. About two pumpings will empty the tank, and the operator has only to direct the spray. For small trees, shrubs, spraying weeds, cattle or whitewashing. It can be carried in the hand or used as a knapsack sprayer.

- No. 1B. Brass Tank with Auto Spray.....\$8 50
- No. 1D. Galvanized Tank with Auto Spray..... 5 50

Postage extra. Mailing weight, 10 lbs.

Extension Pipes. 2-foot lengths for spraying tall shrubs and trees; solid brass. 50 cts. each.

Planet Jr. Farm and Garden Tools

SEND FOR SPECIAL CATALOGUE FOR FULL DESCRIPTION
AND PRICES

No. 300 Drill Seeder

A plate or disc Seeder for all seeds from the smallest up to and including peas, beans, and corn. Growers of peas and beans will appreciate this Seeder as it does not break the seed and sows with great regularity. Only three plates each with thirteen holes, making ample adjustment for various seeds. Hopper holds 4 quarts and is removable, which makes easy filling and emptying. Net weight, 36 pounds. **Price, \$18.75.**

No. 17 Single Wheel Hoe

The No. 17 is very popular with the home gardener and the market gardener. Equipment includes the attachments that are most frequently used and which are the most valuable. They include a pair of 6-inch hoes, three steel cultivator teeth, and a large garden plow. Frame is of steel; steel wheel is 15 inches in diameter. The No. 17 will do in a few hours work that would require as many days with the old hand hoe. It will pay for itself in a short time. **Price, \$7.35.**

Farming Tomato plants early in May

Planet Jr. Farm and Garden Tools

No. 11 Double and Single Wheel Hoe Combined

The most completely equipped Wheel Hoe offered the market gardener or home gardener. Will do the widest range of work and we recommend it for all large gardens and for farmers and others growing a variety of vegetables.

As a Double Wheel Hoe it straddles the row until the plants are 20 inches high, cultivating both sides at one time, then is used between the rows as a Single Wheel Hoe. Cultivating equipment includes a pair of 6-inch hoes, a pair of 4½-inch hoes, 4 steel cultivator teeth, one pair of plows, two 3-tooth rakes, two 5-tooth rakes, two leaf lifters. Steel frame; 14-inch steel wheel. **Price, \$13.00.**

No. 12. Same, less the pair of 4½-inch hoes and the rakes. **Price, \$10.25.**

No. 13. Same, with only one pair of 6-inch hoes as equipment. **Price, \$7.60.**

No. 119 Garden Plow and Cultivator

For the man who wants a high wheel garden Plow and Cultivator but who wants, at the same time, "Planet Jr." quality. Wheel has $\frac{3}{16} \times \frac{3}{8}$ -inch steel spikes and is 24 inches in diameter. An easy-running tool for any garden work but particularly where potatoes, corn, field beans or anything in wide rows must be cared for by hand rather than with a horse. Equipment includes a substantial garden plow, a 1¾-inch cultivator tooth, a 4-inch cultivator tooth, and a combination of a pointed scuffle blade and a 2- or 3-tooth cultivator, both on one frame, and reversible.

The 1¾-inch tooth shown on Cultivator can be attached between the two teeth shown on attachment directly behind. **Price, \$3.75.**

No. 100 Plain Cultivator

Built to give the best possible results in light sandy soils. The No. 100 is very light and easy to handle and at the same time it is built of the very best material and will last a regular "Planet Jr." lifetime. We unhesitatingly recommend this machine to all growers working crops on light, sandy soils. Turning shovels and shovel steels may be used.

They are furnished as extras. Useful for making furrows; afterwards for covering up; also for plowing and hilling as much or little as desired. **Price, \$8.35.**

No. 100-D. Same, less the wheel. **Price, \$6.75.**

Planet Jr. specially hardened Cultivator Teeth, Sweeps, Hillers, Furrowers, Turning Shovels, Bolts, etc., in stock at all times

We carry a line of parts, including Shares, Landsides, Moldboards, etc., for John Deere, Southbend, Oliver, Imperial, Syracuse, Ferguson, and other Plows
